

Water Corporation Waterwise Toilet Rebate

Terms and Conditions 2024-25 program

The **Waterwise Toilet Rebate** is available to residential property owners in Western Australia who are scheme water customers of the Water Corporation. A Rebate of \$400 is available on the purchase and install of a new dual flush WELS (Water Efficiency Labelling Standards) 4-Star Rating toilet to replace a single flush toilet. A maximum of 2 Rebates of \$400 each are available for residential property owners with more than one single flush toilet.

The Corporation is offering the Rebate to improve water efficiency and reduce water waste. Single flush toilets use 12 litres of water per flush compared to WELS 4-Star Rating toilets, which use 4.5 litres of water for a full flush and 3 litres of water for a half flush. A total of 300 Rebates are available. Applications will be open from:

- 15 November 2024 to 31 May 2025 (inclusive) for customers that own residential property in regional areas of WA; and
- 4 March 2025 to 31 May 2025 (inclusive) for customers that own residential property in the Perth/Peel areas of WA,

or when the limit of 300 Rebates is reached, whichever occurs first.

To be eligible for a Rebate, the toilet and installation must have been purchased and completed within the Rebate Period. The product must be a WELS 4-Star Rating (or higher) dual flush toilet and be purchased to replace a single flush toilet. The installation works must be completed by a Licensed Plumber or a Waterwise Licensed Plumber if you are in the Perth or Peel region.

It is important that you read and understand the terms and conditions below before you engage a Licensed Plumber to complete the works and apply for the Rebate.

The Corporation offers the Rebate in accordance with the following terms and conditions. By participating in and registering for the Rebate, you are taken to have accepted these terms and conditions.
